Dear Engr. Uduak,
As instructed by the Project Manager, Engr. Olabode, could you please include the pickup cost for the next item (stud bolts) and revert with the total amount to enable us to proceed with the refund and arrange payment for the next pickup.

Best regards,
Charles

Dear Charles,
See below Breakdown;

1. 4 days for Inspection activity at Coalberg Facility; 2 days inspection on material to meet specification, and 2 days on the delivery.
2. 2 days for Inspection activity at St Johns Facility; 1 day inspection on material to meet specification, and 1 days on the delivery of the Bolts and Gasket for Hydrotest. See attached Email.
3. Community settlement is cash. This was not planned but it happened. The first day there were no community issues because all the material were concealed. But yesterday, the Teflon sheets were exposed which attracted them and they followed us to the Gate. They requested N150,000, but for the intervention of the security lead at Marconi gate, we aligned at N20,000 cash.

4. see attached Evidence.

Dear Engr. Uduak,
Your email is well received. Thank you for the update.
Could you please provide a breakdown of the logistics expenses incurred during the six-day inspection, along with evidence of payment for the second and third line items, as highlighted in your email? This will enable me to seek the necessary approval for the refund.
Thank you for your cooperation.
Best regards,
Charles

Dear Olabode,
The Materials, including the Teflon has been delivered to MNL, except the Stud bolts.
Kindly share the PO for alignment with the stores for handing over.

At the moment, we are doing a joint inspection with the YP on the materials.

@Charles Ihuarulam, As discussed yesterday, Kindly support to raise the Expense form for the following;

1. 6 days inspection logistic @ N15,000 per day
2. 2 times of Transport of Material to Marconi @ N30,000 each trip.
3. Community settlement @ MNL gate N20,000.

Just for clarity, I have already made payment from personal funds for Item 2 and 3, and I will appreciate if I can get this reimbursement today as discussed yesterday.

Hello Olabode,

Looks like one nut thickness is added to the length of machine bolt .

Normally machine bolt length excludes head thickness. Hence need to recheck the length.

We need to have a minimum required threads on both sides after installation with two lock nuts.

You can proceed accordingly after consideration.

Dear Roy,
Further to our earlier communication, please find below the proposed stud bolt lengths, including provision for two lock nuts as requested:

1. M14 x 105 mm Stud Bolt c/w 2 Lock Nuts, ASTM A193 B7 / A194 2H, HDG – 14 Nos.
2. M24 x 145 mm Stud Bolt c/w 2 Lock Nuts, ASTM A193 B7 / A194 2H, HDG – 68 Nos.
3. M24 x 155 mm Stud Bolt c/w 2 Lock Nuts, ASTM A193 B7 / A194 2H, HDG – 112 Nos.
4. M36 x 215 mm Stud Bolt c/w 2 Lock Nuts, ASTM A193 B7 / A194 2H, HDG – 16 Nos.

We will proceed with the procurement activities based on the above requirements and also expedite delivery.

Dear Roy,
Considering the urgency of the four outstanding bolt items, could you please confirm whether the below-specified hex bolts can be replaced with stud bolts of the same size, material specification and applicable coating requirements?
The proposed substitution would allow us to explore an alternative procurement route and have these items delivered together with the other materials currently available.
The affected items are:

1. M14 x 80 mm Hex bolt, ASTM A193 B7 / A194 2H, HDG – 14 Nos.
2. M24 x 110 mm Hex bolt, ASTM A193 B7 / A194 2H, HDG – 68 Nos.
3. M24 x 120 mm Hex bolt, ASTM A193 B7 / A194 2H, HDG – 112 Nos.
4. M36 x 170 mm Hex bolt, ASTM A193 B7 / A194 2H, HDG – 16 Nos.

Kindly confirm whether this substitution is technically acceptable for the intended pipe support applications, including compatibility with the relevant drawings and installation requirements.
Your prompt confirmation will enable us to proceed immediately with the alternative procurement option and improve the delivery timeline.
Regards,

Olabode Oke,
Senior Project Manager

Dear Olabode,

First 4 items will put us in serious trouble during SD Piping Installation.

All these required for Pipe Support and in turn Pipe spools installation, which will be seriously affected if we get these after 2 weeks.

How can we get these within two weeks??

Dear Olabode,

Thank you for the update.

Kindly share the invoice for 50% upfront payment. However, kindly note that the remaining 50% balance will be payable after full receipt of the materials, upon submission of the invoice and duly signed/stamped waybill. This is a balanced and more objective position.

Once this understanding is confirmed and agreed, we will proceed with revising the PO accordingly, after which DLE can proceed with the invoicing for 50% of total PO value.

Sincerely.

Dear Kenneth,
As discussed, all the materials have been confirmed available and have been sighted.
To facilitate the immediate release and delivery of the materials, DLE requests that 60% of the issued PO value be paid upfront, with the remaining 40% payable upon delivery, confirmation and acceptance of the goods at Marconi.
Upon confirmation of the 60% upfront payment, we will proceed with the necessary arrangements for delivery to Marconi and provide the confirmed delivery date accordingly.

Dear Oke,

Many thanks for the information provided.

I have reviewed the attached file. However, what I am requesting is the ETA for delivery to Marconi. I am not sure whether the delivery timeline indicated in the Excel file is for delivery to Marconi or from your source to DLE, as I noted that the delivery status states “upon confirmation of payment.”

Please also refer to the PO issued to DLE, you will see the PO issue date and the specified delivery date, which has already passed.

Kindly confirm the current status and provide the expected delivery date to Marconi. If there are any concern you would like to share. I can fix a meeting for tomorrow.

Sincerely.

Dear Nkechi,

I have received feedback from our technical team,

"Certification looks fine.

U-bolt dimensions should be as per YP standard drawing.

Since Dormanlong is involved in the project hope they will issue the materials with correct dimensions."

With the assurance that materials will be delivered in the correct dimensions, I am requesting for a significant discount that will enable us proceed with your offer.

Sincerely.
