M56 STUD BOLTS AND nUTS.jpeg;

Dear Team,

The stud bolts and nuts are now been received. Please do necessary checks

- 32 numbers bolts & Nuts received
- 60 washers received instead of 64 (The vendor has been notified to provide the outstanding 4)
- The gasket will be delivered tomorrow.

**Regards,**

**Olabode Oke,**
**Senior Project Manager**

Dear Bode,
The bolts and nuts have been verified to run.
Sorry for the late response, this is due to my health yesterday.

Dear Uduak,
As discussed yesterday, following the review conducted to verify the suitability of the recovered bolts by checking the nut run, we understand that the bolts are acceptable for use.
Based on your review and approval, we will proceed with the procurement of the required nuts and mobilize them to site to facilitate the planned hydrotest.
Kindly let us know if there are any further requirements or observations.

**Regards,**

**Olabode Oke,**

Dear Bode,
The thread though rusted were still running the Nut threads.
For your Proposal to use it as it is, the Bolt shall be cleaned and re-inspected individually before dispatch.

Best Regards,

Uduak Esau

Good morning Uduak,

Thanks. We discussed yesterday that it is going to be used inhouse. Because of the urgency, please confirm if the treading were worn-out or rusted, but can still be cleaned and greased for use.

**Regards,**

**Olabode Oke,**

Dear Bode,
The inspection was completed on 01/08/26. The Gasket and the washers are acceptable, But the Stud bolts and Nuts are recovered and not acceptable.

Best Regards,

Uduak Esau
